

Geometry: S1

Reach:	460mm (+-10mm)
Stack:	620mm
Chain stay:	455 / 460 / 465mm
BB height:	350mm
Wheel sizes:	V 29" / H 27.5"
Hub spacing	148 x 12 Boost
Rear travel:	198mm
Shock size	250 x 75 metric, 30 x 8 mm hardware front and back
Chain-offset:	50mm (Pinion- C-line)

Geometry: S2

Reach:	485mm (+-10mm)
Stack:	630mm
Chain stay:	455 / 460 / 465mm
BB height:	350mm
Wheel sizes:	V 29" / H 27.5"
Hub spacing	148 x 12 Boost
Rear travel:	198mm
Shock size	250 x 75 metric, 30 x 8 mm hardware front and back
Chain-offset:	50mm (Pinion- C-line)

Pre-order opens on the 1st of September 2021 and finishes on the 30th of October 2021. Reserve your production-slot with a deposit of 100.- CHF.

Build options and the resulting price are coordinated directly with the customer right after the pre-order was successful.

Customers will need to pay 50% of the purchase price at the beginning of the production cycle. The remaining 50% is due after completion of production, just before delivery/pick-up.

Production will start right after the pre-order phase is concluded, with first deliveries expected in February 2022. General rule for delivery is: First ordered, first served

Customizing options:

- Changeable dropouts for custom chainstay length (0, +5 or +10 mm options available)
- Changeable headset cups for custom reach length (0, +/- 5 or +/-10mm options available)
- Changeable linkage-bones for custom suspension kinematics (Coil or Air kinematics available)
- Customers can choose between dark anodized finishes or a raw finish
- Frames are limited to 100 units
- Frames are numbered and signed
